Ok, that's fine. How is 4:00 today? It shouldn't be more than a half hour.

Hi Annamaria,

I apologize, I will actually be in the field tomorrow beginning at 12:30. So either today or later tomorrow would be best for me.

Thank you,

Hi Jose.

How about tomorrow afternoon at 1:30 EST? We are ok with later tomorrow too if that is better. We can send you a calendar invite with the call in information. Thanks!

Annamaria

Hi Annamaria,

I'm available today and tomorrow in the afternoons. I asked James Yrigoyen, our biologist in USVI to be on the call as well. Let us know if this works for you.

Hi Jose,

Hope things are improving for you. I was wondering if you were available for a chat either later this week or next week?

Thanks.

Annamaria

Hello Annamaria,

We are a bit shaken, but ok. Most of the Island still without power. Our office is in

southwestern PR, close to the earthquake epicenter. Therefore, we will not work in the office until it is inspected by USFWS engineers. Please, touch base with me early next week to see when we can talk.

Hello, Jose.

First, are you in Puerto Rico? If so, we hope that you are ok due to the recent earthquake.

Neha Sareen and I are with the US Environmental Protection Agency in NY and are working on an air permit in St. Croix. We have some questions regarding ESA. We received your name as a contact from Catherine Collins in your Denver office. Would you be available next week for a brief chat? Please let us know when is a good time.

Thanks in advance.

Annamaria Colecchia
